get care + coverage from Kaiser Permanente

## You're at the center of everything we do at Kaiser Permanente.

We work hard to deliver the health and health care you expect and need, whether it's providing simple ways to live a healthier lifestyle or pioneering new methods to screen for and treat cancer.

We serve more than 12 million members at Kaiser Permanente, and each one can experience seamless health care. Our approach to team-based care ensures that you get the right care at the right time in the right place.

And we often can provide everything you need all at once. No need to run to the store to fill a prescription, or drive across town for lab work — at Kaiser Permanente, it happens under one roof.
