

45M office visits

in so many places

Jun 22, 2017 (performance year 2016)

We work hard to make it easy to get health care, which is why 45 million members visited us at our hospitals and medical offices in 2016*.

But we continually explore new ways to make it easier to visit us in-person. You're always welcome at more than 700 of our facilities — but perhaps a quick trip to our clinic at your local Target store would better suit your needs.

Kaiser Permanente recently agreed to expand a partnership to provide care in 35 Target stores in Southern California. Who knows where you'll find us next?

*According to the 2017 HEDIS, or Healthcare Effectiveness Data and Information Set, which is used by more than 90 percent of America's health plans to measure performance on care and service.
