

1.75M

emergency room visits

No one wants to visit the emergency room — but when you need it, the ER can be essential to your health, perhaps your life. That’s why, in the communities we serve, we’re there in the places you live, work and play.

Serving 1.75 million patients in our ERs isn’t a simple matter, but we’re proud to provide fast, professional emergency services when patients need it.
