DOCTORS

delivering high-quality care

**Whether you're healthy or sick, you can rely on a care team led by your personal physician who practices Permanente Medicine — a philosophy of care that is patient-centered, accountable, and embraces proven innovations in medicine.**

Your doctor is supported by a system that connects all aspects of your care, so you'll receive high-quality care conveniently and efficiently. Using industry-leading electronic health technology, your physician has your most up-to-date health information, providing you with the right care, at the right time and in the right place.
