

More top-ranked health plans

than any other care system

Every year, the National Committee for Quality Assurance rates more than 1,000 health plans from 0 to 5 (the highest ranking). These rankings are based on quality of care, the outcomes of care and the satisfaction of patients.

Only 14 health plans achieved a perfect rank of 5 — and **9 of those plans belong to Kaiser Permanente**, more than any other health care system.

Our health plans are the highest ranked in all 8 states we serve, as well as Washington, D.C.

How'd we do it? By constantly striving to achieve our mission — to deliver high-quality, affordable care to you and your loved ones.
